Maintenance and Support

The end-of-availability notice includes an end-of-support date that is five years after the last shipment date for the array.

We will continue to offer maintenance and support services until the applicable end-of-support date on the array. For information on Nimble's Standard Support policy, please see https://www.nimblestorage.com/customer-support/

End-Of-Support: Hardware

For those customers under a current support agreement with Nimble for the applicable hardware, Nimble will provide standard hardware support for five (5) years from the last shipment date for the applicable hardware. At the end of this five (5) year period, Nimble will stop providing hardware support for the applicable hardware.

End-Of-Support: Software

For those customers under a current support agreement with Nimble for the applicable hardware, Nimble will provide standard major releases, minor releases, maintenance releases and patch release software for five (5) years from the date of last shipment for the applicable hardware. At the end of this five (5) year period, Nimble will stop providing these software releases for the applicable hardware.
