Quick pick: Which HPE iLO license is right for me?

Trial license: Free 60-day
You can sign up for a 60-day free trial iLO license to test drive our licensed features.

NOTE:
If you have already signed up and applied a trial license to your server, you will not be able to do this. The free trial license key can only be applied to your server once.

Test drive these today:
- HPE iLO Advance Premium Security Edition
- HPE iLO Advanced
- HPE iLO Essentials
- HPE iLO Scale-Out

HPE iLO license options overview

IMPORTANT:
- HPE iLO Standard Features Support—iLO standard features support is covered under the hardware warranty for your server.
- HPE iLO Support for Licensed Features—Purchasing one (1) and three (3) year support licenses refers to the length of the support agreement for licensed iLO features. When you register your license, HPE prepares a support agreement. Once the support agreement expires, you can continue to use licensed features. However, support for those licensed features is not available. You have the option to renew licensed features support.
- HPE iLO licenses do not expire. Once it is installed on the server, the license will remain on that server even if the license support expires. Licenses are valid for the life of the server on which they are installed.
- HPE iLO license options vary by server platform and sales region. For a detailed list of options available for a specific product number, see HPE iLO license product numbers (SKUs).

Beginning the license selection process

Procedure
1. To determine which number combination is listed for the license type, server support, and purchasing option that best meets your needs, review the options shown below.

   Example
   If you want:
   - An iLO Advanced license
   - For any HPE ProLiant server model
   - For less than 50 servers
Your selection is **1-1**.

2. In the table following the figure, use the link that corresponds to your selection from Step 1 to go to **HPE iLO license product numbers (SKUs)** and determine the license product number that matches your installation, delivery, and support requirements.

### HPE iLO license product numbers (SKUs)

The following tables list available HPE iLO license product numbers (SKUs) and the delivery, support, and registration options available for each.

**NOTE:**

To insure that iLO single-server physical licenses are installed at the factory at no extra cost, you must include 0D1 option in the product number SKU as shown in the following tables.

**IMPORTANT:**

- You are entitled to a one (1) or a three (3) year support contract on licensed features.
- After your one (1) or three (3) year support contract expires, your HPE iLO licensed features still work, and are enabled. However, you will not have HPE support for those licensed features.
- HPE iLO licenses **do not expire**. Once it is installed on the server, the license will remain on that server even if the license support expires. Licenses are valid for the life of the server on which they are installed.
- HPE iLO standard features are shipped at no extra cost as part of your server purchase. Standard features are supported under the server hardware warranty.

1 You are entitled to a one (1) or a three (3) year support contract on licensed features. After your one (1) or three (3) year support contract expires, your iLO licensed features still work, and are enabled. However, you will not have HPE support for those licensed features. Your licenses do not expire. They are valid for the life of the server on which they are applied.

2 iLO standard features and firmware updates are supported under the Server Hardware Warranty Contract. iLO firmware updates are available at or http://www.hpe.com/support/iLO5.

HPE iLO licensing support contact addresses

NOTE:

• To obtain support, you must provide proof of a license purchase.
• You cannot exchange a license that is redeemed (activated).

• Americas: licensing.ams@hpe.com
• Europe, Middle East, and Africa: licensing.emea@hpe.com
• Asia-Pacific and Japan: licensing.apj@hpe.com

Obtaining your Service Agreement ID (SAID), and accessing updates

The SAID is a 12 digit number assigned for entitlement to a service agreement contract. You must have a SAID to access HPE Technical Support and Software Updates for HPE hardware and software products.

When your license is registered on the My License Portal, you receive a Welcome to Support letter or email that includes your SAID, along with other contract information.

After you receive your SAID, you can link it to your HPE Passport account so that you can access updates directly from the Software updates and licensing portal (http://www.hpe.com/downloads/software).

Procedure

2. On the left navigation menu, click Manage my contracts & warranties.
3. Click Link support agreements and follow the instructions.

To access software updates if you have not yet linked your SAID to your HPE Passport account:

• Go to the Software updates and licensing portal at http://www.hpe.com/downloads/software, and sign in with your HPE Passport account.
• Select Directly enter an SAID, enter your SAID, and click View available products.

Support and other resources

Accessing Hewlett Packard Enterprise Support

• For live assistance, go to the Contact Hewlett Packard Enterprise Worldwide website: http://www.hpe.com/assistance
• To access documentation and support services, go to the Hewlett Packard Enterprise Support Center website: http://www.hpe.com/support/hpesc
Information to collect

- Technical support registration number (if applicable)
- Product name, model or version, and serial number
- Operating system name and version
- Firmware version
- Error messages
- Product-specific reports and logs
- Add-on products or components
- Third-party products or components

Accessing updates

- Some software products provide a mechanism for accessing software updates through the product interface. Review your product documentation to identify the recommended software update method.
- To download product updates:
  
  Hewlett Packard Enterprise Support Center
  [www.hpe.com/support/hpesc](http://www.hpe.com/support/hpesc)

  Hewlett Packard Enterprise Support Center: Software downloads
  [www.hpe.com/support/downloads](http://www.hpe.com/support/downloads)

  Software Depot
  [www.hpe.com/support/softwaredepot](http://www.hpe.com/support/softwaredepot)

- To subscribe to eNewsletters and alerts:
  [www.hpe.com/support/e-updates](http://www.hpe.com/support/e-updates)

- To view and update your entitlements, and to link your contracts and warranties with your profile, go to the Hewlett Packard Enterprise Support Center [More Information on Access to Support Materials](http://www.hpe.com/support/AccessToSupportMaterials) page:

  ![Important]

  Access to some updates might require product entitlement when accessed through the Hewlett Packard Enterprise Support Center. You must have an HPE Passport set up with relevant entitlements.

Customer self repair

Hewlett Packard Enterprise customer self repair (CSR) programs allow you to repair your product. If a CSR part needs to be replaced, it will be shipped directly to you so that you can install it at your convenience. Some parts do not qualify for CSR. Your Hewlett Packard Enterprise authorized service provider will determine whether a repair can be accomplished by CSR.

For more information about CSR, contact your local service provider or go to the CSR website:

[http://www.hpe.com/support/selfrepair](http://www.hpe.com/support/selfrepair)

Remote support

Remote support is available with supported devices as part of your warranty or contractual support agreement. It provides intelligent event diagnosis, and automatic, secure submission of hardware event notifications to Hewlett Packard Enterprise, which will initiate a fast and accurate resolution based on your product's service level. Hewlett Packard Enterprise strongly recommends that you register your device for remote support.

If your product includes additional remote support details, use search to locate that information.

Documentation feedback

Hewlett Packard Enterprise is committed to providing documentation that meets your needs. To help us improve the documentation, send any errors, suggestions, or comments to Documentation Feedback (docsfeedback@hpe.com). When submitting your feedback, include the document title, part number, edition, and publication date located on the front cover of the document. For online help content, include the product name, product version, help edition, and publication date located on the legal notices page.
